3.2.4 Timeline for Evaluation Completion

Evaluations take time. When Transfer Credit Services receives all the transcripts, supporting documents, and required fees, your evaluation request enters a queue. It can take from six (6) to eight (8) weeks to complete your evaluation. If additional information is required, or AU is experiencing high volumes of requests, it may take longer. In addition to official transcripts, supporting documentation, such as course and program descriptions, may be required from the sending institution.

Failure to provide this information when it is requested will impede the evaluation process. When the evaluation is complete, you will be notified what transfer credit has been awarded and how it applies to your program of study.

Current processing time: 4 weeks

Kinds of transfer

Course-by-course: depending on your program, transfer credit evaluations can result in course-by-course transfer credit, meaning certain courses that you have taken are accepted as transfer credit into your program.

Block: College diplomas and other credentials may be accepted as blocks of transfer credit toward AU programs.

Decisions are recorded by course (course-by-course) and by program (block) in our transfer credit database.
